Electronic Engineering

GENERAL INDEX

Volume XIX

January to December 1947

Page

Abstracts of Electronic Literature 34, 68, xvi Mar., 170, 270, 304, 340, 408
Acoustic Exponential Horns, The Design of 286

AMPLIFIERS

Load Conditions in Class A Triode 11
The Twin Triode Phase-Splitting Amplifier ... 62
Portable Two Channel Amplifier and Ink Recorder, A 221
Valve and Circuit Noise in High Gain Amplifiers ... 81
Amplitude-modulated communication in the V.H.F. Band 143
Analogue Computing, Electrical ... 178, 214, 259, 283
Another Calculating Machine 250
Application of Chemically Unstable Phosphors to C.R. Tubes, The 363
Application of Motion Study, An 278
Audio Oscillator, A Wide Range 246
Automatic Checking of Frequency Response 135
Automatic Traffic Control at the Bank 334
Auto-Transformer at Television Frequencies, The Interstage 21

Beetle Tracer, An Electronic 67
Bell at its Fundamental Mode, Ringing a 219
Bellows, Metal 397
Bibliography of Magnetic Recording, A 390
Biological Research, The Thermistor in 288

BOOK REVIEWS—

British Radio Components Catalogue 169
British Time 371
Calculating Machines 237
Capacitors—Their Use in Electronic Circuits 268
Communication through the Ages 202
Drafting for Electronics 203
Electrical Contacts 101
Electrical Transmission in Steady State 168
Electronic Control of Resistance Welding 338
Electronic Developments 268
Electronics Dictionary 300
Electronics in Industry 338
Fundamentals of Industrial Electronic Circuits 236
Guide to Broadcasting Stations 371
Handbook of Telecommunication, A 66
Induction Heating 301
Intelligent Use of the Microscope, The 237
Introduction to Electron Optics 101
Introduction to Transmission Lines, An 136
Logarithms Made Easy 169
Marconi 1939—1945 67
Mechanical Measurements by Electrical Methods 404
Microscope: Its Theory and Applications, The 339
Photoelectric Cells 301
Photographic Recording of C.R. Tube Traces 301
Physical Principles of Wave Guide Transmission and Antenna Systems 136
Principles of Electrical Engineering 269
Principles of Radar 168
Radar Engineering 370
Radio Receiver Servicing and Maintenance 237
Radio Tube Vade Mecum 136
Radio's Conquest of Space 202
Reference Data for Radio Engineers 67, 136
Technical Dictionary—English, German and French ... 168
Telegraph Transmission Theory 339
Television Primer of Production and Direction 404
Television Receiving Equipment 169
Television Today 405
Two Electronic Handbooks 100
Vector Operator "j", The 169
Wave Propagation in Periodic Structures 66
X-Rays in Practice 236

Cable and Wireless Facsimile Equipment 49
Calculating Machine, Another 250
Calculating Machine, High Speed Electronic, The ENIAC 105
Capacitor Testing, Mechanised 2
Carbon Black 265
Cathode-Follower Circuit Using Screen—Grid Valves 97
Cathode Structure, Improved 258

CIRCUITS—

An Unusual Rectifier 30
Abstracts 34, 170, 304, 340
Universal Oscillograph, A 52
Cathode Follower, Using Screen-Grid Valves ... 97
A Frequency Tripling Circuit 217

Page

Coils, The Design of Small Single-layer 353
Commercial Applications for Picture Telegraphy ... 44
Communication in the VHF Band, Amplitude-Modulated 143
Compass, A New British Radio 325
Complex Waveforms (correspondence) 27
Computing, Electrical Analogue ... 178, 214, 259, 283
Conveyor System, Unit Construction 206
Console for Sound Installation, A 289
Correspondence 27, 238, 302
Counter Chronometer, An Electronic Decimal ... 3, 58

C.R. TUBES—

Abstracts 34, 304
Measurement of H.T. by C.R. Tube 177
The Application of Chemically Unstable Phosphors to C.R. Tubes 36
Crystal Resonators, The Series Trimming of 28
Curve Follower, A Photo-Electric 39

Decimal Counter Chronometer, An Electronic 3, 58
Degrees for Ex-Servicemen, Engineering and Science xvi May
Correspondence 262
De-Icing, Domestic 8
Demonstration Valve Oscillator, A 162
Design of Acoustic Exponential Horns 286
Design of Small Single-Layer Coils, The 353
Design of a Synchrodyne Receiver, The ... 241, 276
Design of Tuned Transformers, The 83, 117
"Desynn" System of Remote Indication 91
Detectors, Distortion in Diode 94
Development of Photo-Telegraphy, The 37
Developments in Magnetic Recording 377
Dial Lamps, in a Universal Receiver, The Protection of 337
Diathermy, Stable Frequency Short-Wave 401
Diathermy, The Physics of Industrial ... 227, 290, 361
Diode Detectors, Distortion in 94
Direct Currents, A Method for the Measurement of ... 249
Distortion in Diode Detectors 94

Edison, Thomas Alva 114

Interstage Auto-Transformer at Television Frequencies, The 21

Load Conditions in Class A Triode Amplifiers 11

Magnetic Properties of Fine Wire, The Measurement of the 383
MAGNETIC RECORDING—
A Bibliography of 390
Developments in 377
Recent Advances in Steel Wire (correspondence) xvi July
The Standardisation of 396
Magnetic Tape Recorders in Broadcasting ... 393
Mass and Energy (correspondence) 27
MEASUREMENT—
Abstracts ... ... 34, xvi March, 270
H.T. by Cathode-Ray Tube, Measurement of ... 177
Magnetic Properties of Fine Wire, The Measurement of the 383
Method for the Measurement of Small Direct Currents 249
Modern Vibration Measurement Laboratory, A 71, 109, 152, 189
Transmission Measuring Set for 0.1 to 11 c/s, A 77, 125
Mechanised Capacitor Testing 2
Mersey Harbour, Radar for 263
Metal Bellows 397
Method for the Measurement of Small Direct Currents 249
Millisecond Timer, An Electronic 207
Miniature, F. M. Transreceiver, A 392
Mobile Television Unit, A Revolutionary 188
Model Train, Electronically Controlled 159
Modern High-Quality Television Receiver for the Home Constructor 320
Modern Vibration Measurement Laboratory, A 71, 109, 152, 189
Modification to Ray Theory Allowing for Ground Contours, A 17
Modulation, Velocity 147, 199
Monitor, The Waveform 272, 328
A Note on the Zero Setting Circuit of the Waveform Monitor 332
Motion Study, An Application of 278

New British Radio Compass 325
New Double Electrometer Valve, A 365
New H.F. Broadcasting Transmitter, A 396
New Methods of Radio Production 124
New Photo-telegraph Equipment 46
New Range of Glass-based Valves 231
New Types of Silver Coatings 193
Nickel Plating on Steel by Chemical Reduction ... 161
Nickel in Radio Valves, A Substitute for 123
Nomogram for Calculating the Sum of Two Squares ... 298
Note on the Twin Triode Phase-splitter, A ... xvi Aug.
Note on the Zero Setting Circuit of the Waveform Monitor, A 332
Notes from the Industry ... 32, xvi Feb., 98, xvi April, 166, xvi June, 235, 266, 295, 336, 374, 403
N.P.L., The Work of the 248

Oscillator, A Demonstration Valve 163
Oscillator, A Wide Range Audio 246
Oscillograph, A Universal 7, 51

Perfect v. Pleasing Reproduction 23
Discussion 115
Phase-Splitter, A Note on the Twin ... ... xvi Aug.
